Transformational Teaching Feb 14 2020 Comprehensive and up-to-date, *Transformational Teaching* provides a survey of instructional design and effective pedagogy that incorporates a biblical worldview throughout, making it especially useful for education courses at Christian colleges, Christian teachers who desire further training or ACSI certification, and homeschooling parents using a faith-based curriculum. The book explores philosophical and psychological foundations underlying teaching approaches, interprets the latest findings in neurological and educational research, and weaves InTASC standards throughout select chapters. Additionally, the final section is devoted to specific disciplines to offer strategies for effective teaching and faith integration in each subject area. Most chapters also feature a worldview foundations section, current research on best practices, case studies, and challenges for reflection and application. Written by authors with more than a century of combined teaching experience, including K-12 classrooms in both public and Christian schools, higher education, online instruction, and international training conferences, *Transformational Teaching* sets a new standard for teacher training that is specifically geared to a Christian educator.

A Redesigned Life May 19 2020 The very existence of HGTV, the DIY movement, and Pinterest proves we love great design. We adore plans and perfectly staged rooms. But what happens when we discover we are living a life we did not design? When our dreams lie in tatters or when we experience loss of any kind? What happens when life feels like one big Pinterest fail? Where is God in the midst of what doesn't make sense? Does he care? Drawing from time-honored design principles such as movement, contrast, and pattern, former interior designer and Bible teacher Tracy Steel offers frustrated and discontented women the assurance that God is their ever-present, caring Designer. With a mix of wit and wisdom, Tracy proves through biblical examples and personal testimony that God remains true to his plans and purposes, accomplishing them in and through us in every season of life. She helps us recognize God's design principles, enabling us to embrace our sometimes messy lives, especially when they're ones we never would have designed for ourselves.

Darwin and the Bible Jun 19 2020 For courses in evolution, creationism or as a supplemental item in biology and/or biological anthropology courses. Darwin and the Bible helps readers to understand the nature, history and passions behind the debate over scientific and religious versions of creation and human origins. Darwin and the Bible: The Cultural Confrontation is about the history and nature of the disputes over human origins that arose with the publication of Charles Darwin's book, Origin of Species in 1859. The readings in the text provide the, historical, theological, social and political backgrounds of the debate. Rather than trying to demonstrate the truth of Darwinian evolution, this book seeks to help the reader understand why the debate over Darwin and the Bible remains as contentious as ever. The book seeks to examine why Darwin's theory of evolution appears threatening to some people, and, likewise, to help understand why some scientists often react with such emotion to challenges to their views. The contributors include biological scientists, social scientists, social historians, and proponents of the importance of God, faith, and religion in peoples lives.

Crafted by God Dec 26 2020 With so many authors and an array of genres, you might expect the Bible to be an anthology of disconnected pieces. Yet, the sixty-six books from Genesis to Revelation weave together into a cohesive unit of divine instruction. But, the question remains - Is there more? Is there a comprehensive design in the Bible that surpasses the mere idea of conceptual unity? Stepping back to look more broadly at the arrangement of the sixty-six divinely inspired books of the Bible it is surprising to observe a mosaic image of a person with a head, torso, arms, and legs. The body of Jesus Christ (Incarnation) and the body of biblical truth (Inspiration) representing the two special revelations of God, were apparently constructed in the same manner. Taking the books of the Bible in their received groupings and order, being careful not to manipulate God's providential arrangement, we see a mirror image of the man Jesus Christ. It seems that the Bible presents to us the Person of our Lord, not only in its content, but also in its form. Crafted by God is the unveiling of this discovery and a probing of its implications. Here is a study that truly unlocks the harmonious structure and purposeful design of the Bible - as well as opening new vistas of thought that put all of Scripture into its contextual meaning.
