**Counselling for Maternal and Newborn Health Care** Jan 17 2020 The main aim of this practical Handbook is to strengthen counselling and communication skills of skilled attendants (SAs) and other health providers, helping them to effectively discuss with women, families and communities the key issues surrounding pregnancy, childbirth, postpartum, postnatal and post-abortion care. Counselling for Maternal and Newborn Health Care is divided into three main sections. Part 1 is an introduction which describes the aims and objectives and the general layout of the Handbook. Part 2 describes the counselling process and outlines the six key steps to effective counselling. It explores the counselling context and factors that influence this context including the socio-economic, gender, and cultural environment. A series of guiding principles is introduced and specific counselling skills are outlined. Part 3 focuses on different maternal and newborn health topics, including general care in the home during pregnancy; birth and emergency planning; danger signs in pregnancy; post-abortion care; support during labor; postnatal care of the mother and newborn; family planning counselling; breastfeeding; women with HIV/AIDS; death and bereavement; women and violence; linking with the community. Each Session contains specific aims and objectives, clearly outlining the skills that will be developed and corresponding learning outcomes. Practical activities have been designed to encourage reflection, provoke discussions, build skills and ensure

the local relevance of information. There is a review at the end of each session to ensure the SAs have understood the key points before they progress to subsequent sessions.

**Grow Your Private Practice** Feb 22 2023 You're a counsellor or psychotherapist, and you're qualified, insured and have a room. Now, how do you attract clients? Starting your own private practice is exciting and challenging, and this book will motivate and inspire and to take the necessary actions to attract clients and build a successful practice that you can be proud of. Inside you'll learn: How to get started quickly and on a budget, no website necessary How to manage those nagging fears or worries that might hold you back How to be visible and attract clients in a way that feels right for you, no cheesy sales techniques required In this easy to read book, we look at niches\*websites\*social media\*content creation and blogs\*mindset\*money\*Imposter Syndrome\*time management\*networking\*offline\*advertising and much more. Written by a counsellor, this book offers down to earth practical advice to grow your confidence, so you can grow your private practice into whatever you want it to be. By the end of this book, you'll be ready to love and grow your business like never before. I am on a mission to change the face of therapy. Together we're going to change the way people view our work and shift the public perception of what we do, which will benefit clients, ourselves and the communities around us. WHAT IF PRIVATE PRACTICE FOCUSED ON PREVENTION? People associate counselling with mental health issues, but can you

imagine how much better it would be for them to invest in some therapy BEFORE it got to the point of doctors visits and time off? To get help when they first notice that they have a low mood or are struggling with an aspect of their life or relationship rather than wait till they reach rock bottom? This isn't a new concept, I think all counsellors and psychotherapists want this. So how can we make this happen?

*Session Notes: a Logbook to Record Client Appointments, Therapeutic Interventions, Progress and Plans for Therapists, Psychotherapists and Clinicians* Nov 07 2021 Therapy sessions log is a tool for psychotherapists and counselors to take session notes, plan therapeutic interventions, record therapy hours. With this session notes notebook you can easily organize your note taking and track appointments with your clients. This logbook features: 8.5 x 11 in size to comfortably write in 120 session pages 4 hour log pages Soft matte cover Tips for using this book: Attempt to keep your clients notes in order. For example, if you book in a client for 6 sessions - leave 6 double page spreads in a row so you can easily flip between notes for the same client. Use the contents page as you go. This will help you to keep notes in order and pick up where you left off For long-term clients: Many people choose to dedicate an entire book to a single client. This will make note keeping a much smoother process, rather than having to search between multiple books. Develop your own system: Everyone should take notes in the way that makes sense to them. Many people just continue on how their supervisors taught them - but this may not be the best way for you. It is important however, (once you have established your system) to REMAIN CONSISTENT. This is one of the easiest ways to ensure your notes are organised. This notebook will help every counsellor and psychotherapist be professional and well organized.
